DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

On line 13 of claim 32, replace " Q_{equ} " with $-C_{\text{equ}}$.

On line 18 of claim 47, replace " Q_{equ} " with $-C_{\text{equ}}$.

Furthermore, the IDS had number 5,591,078 listed as a reference. However, that number did not match the inventor listed on the IDS or the reference mentioned in the applicant's specification. Therefore, the number on the IDS has been changed to number 5,691,078, which is what the examiner believes to be the correct document.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance:

Claims 32, 47, and 62 recite a battery capacity calculating method, apparatus, and program (respectively) for a secondary battery, wherein it comprises measuring terminal voltage and current during discharging, calculating an equilibrium voltage curve which shows the relation between a discharged capacity and an equilibrium voltage, calculating a discharged capacity based on the voltage and current measured, calculating an apparent/estimated equilibrium voltage by adding a voltage drop with the terminal voltage measured, calculating an

apparent/estimated discharged capacity based on the equilibrium voltage curve, calculating a capacity shift which is the difference between the discharged capacity and the apparent/estimated discharged capacity, and estimating a future discharge curve based on the capacity shift.

Additionally, equilibrium is interpreted to exist when the internal states of the electrode and the electrolytic solution of the battery become stable after the battery has been left in an open circuit state for a long period of time (i.e. long enough for the internal states to become stable).

The art of record does not disclose the above limitations, nor would it be obvious modify the art in such a manner.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Aaron Piggush whose telephone number is 571-272-5978. The examiner can normally be reached on Monday-Friday 8:30am-5:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Karl Easthom can be reached on 571-272-1989. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
